

=Scenario

President Kennedy is spending a weekend in Hyannisport. Terrorist threats cause a total shutdown of civil and commercial air traffic as well as all navigation aids. Sirens are wailing as the motorcade makes its way to Otis AFB (back in those days it was an Air Force Base, now it belongs to the Air National Guard, Otis ANG). You are about to become Air Force One because you'll be flying JFK from Otis AFB to Andrews AFB with minimum navigation assistance. Fly minimum altitude to maintain a low profile.

Stay on time based on your flight plan. The Nav Aids will only be turned on 5 minutes prior to your ETA and only remain on for 10 minutes.
