

# INSTALLING THE VARSITY FILES X-PLANE

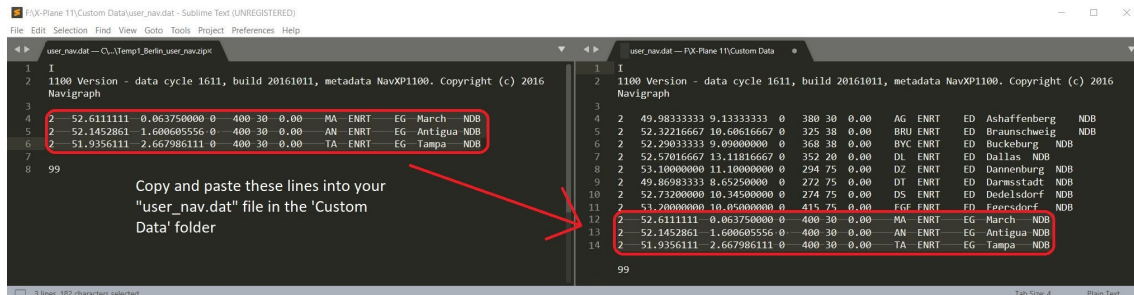

## Installing the NDBs

5. Installing the NDBs used for the Varsity 2021 will involve copying a file, “**user\_nav.dat**” to your “**X-Plane 11/Custom Data**” folder.

6. By default, there should not be a “**user\_nav.dat**” file in the ‘**Custom Data**’ folder, but if you do have one you should not overwrite it.

7. Follow the procedure below to append the 32 lines of text to your existing file:

8. You should be able to see the added NDBs on your X-plane Map:

NAME	FREQ	IDENT	RANGE
Slate	400	S	15
Jasper	400	J	15
Marfak	400	MK	15
Vega	400	VA	15
Kingston	400	KN	15
Last Lap L	400	L	5
Last Lap N	401	N	5
Last Lap K	402	K	5
Onyx	400	O	15
Ruby	401	R	15
Yalta S	401	R	10
Yalta N	399	R	10
